PROFILE

My passion is invested in the development and continued innovation of the web. Since leaving University a little over a year ago, I have had the opportunity to work in a small web development agency – spending significant time developing and releasing applications in OO-PHP (using MVC frameworks such as CodeIgniter and Laravel), Python and Java. Through this employment, I have been able to apply many concepts I learnt during my University course – along with handling real-world use-cases in the form of working with large startups and local businesses.

In one such startup I was tasked with both the development and accompanying load-distributed CentOS, MySQL server's setup. This included a web application written in CodeIgniter (inc. Database migrations, Composer for dependency management), internal maintenance/data crawlers written in Python/Bash and a mobile application written in JavaScript (Titanium SDK). The mobile application has since been successfully released into the iTunes and Android stores. All aspects took advantage of the Git version control system and unit tested in the case of the web application with PHPUnit.

I enjoy the practical application of software design and development, however I still feel the need and find significant enjoyment in continuing to learn in this ever-changing field. As a result of this I spend many hours outside of work completing online University courses (Coursera), listening to podcasts, blogging about my latest technical interests and collaborating with peers on GitHub. This can also be seen by my decision to continue my studies this coming September to complete a Masters in Computer Science, having been accepted into both the University of Southampton and Kent.

SKILLS

Java	★★★★☆	Git • Unix • Unit Testing/BDD
PHP	★★★★☆	MySQL (Large Datasets) • ORM
Python	★★★☆☆	Titanium SDK • C# • Laravel
JavaScript	★★★★☆	HTML5/CSS3 • Bash • jQuery

EDUCATION

BSc Internet Computing
2008 – 2011
University of Greenwich – London, England

1st Class Honours
* school prize for outstanding achievement

BTEC National Diploma for IT Practitioners
West Kent College – Tonbridge, Kent

Distinction, Distinction, Merit

Secondary School GCSEs
Hugh Christie Tech. College – Tonbridge, Kent

14 Gained A* - C
* maths, english & science included

EXPERIENCE

Atkins Global
Work Experience

2004

Robert Dyas
Part-time Sales Assistant

2006 - 2007

360 Software Solutions
Web Developer

2011 - 2013

INTERESTS

As well as computing I have many other outside interests, these include:

- Exploring while **travelling**
- Playing **basketball**
- Listening to **podcasts**
- Watching **football**
- Driving in my **car**
- Black and white film **photography**
